2000-2010

### Tourism expenditure recovers growth

According to the available information, Tourism expenditure is estimated to grow 7.9% in nominal terms in 2010, thereby recovering from the decrease observed in 2009. It is expected an increase of 6.4% in the Value Added Generated by Tourism, a higher growth than the one observed for the all economy (3.3%) in the first three quarters of 2010.
