### Statistics Portugal releases Cultural Statistics

In 2013 40% of the population employed in the cultural and creative sector had a tertiary level of education. The museums registered 11.1 million visitors (approximately one million more than in the previous year). Painting and photography pieces represented a third of the pieces exhibited in temporary exhibitions. Around 36% of the periodical publications were released both in paper and electronic format. Regarding cinema a decrease in movie sessions, spectators and box-office revenues was registered. Live shows accounted for larger number of performances and spectators and less box-office revenues. In 2012 the turnover of cultural and creative enterprises was 4.6 billion Euros.
