### STATISTICAL YEARBOOK OF PORTUGAL CELEBRATES ITS 112<sup>TH</sup> EDITION

This edition of the Statistical Yearbook of Portugal (SYB) marks the 112<sup>th</sup> edition of this publication, its first edition having been published in 1877, with data referring to 1875.

The SYB 2020 is organized in 30 subchapters, distributed in 4 thematic groups (The Territory, The People, The Economic Activity and The State), reporting to data available as of 15 June 2021.

This edition presents, in each subchapter, a summarized statistical analysis, and an infographics page, allowing a quick perception of the phenomena under study.

At Statistics Portugal's website ([www.ine.pt](http://www.ine.pt)), the statistical information on the SYB is also available in XLS/CSV tables, which present extended time series and a geographical breakdown at NUTS I and II levels, allowing for chronological and geographical comparability.

The indicators presented in each subchapter have a link to Statistics Portugal's Dissemination Database, which is regularly updated, making it possible to access the most recent data at any time, as well as methodological notes.

To promote statistical literacy among the younger generations, and citizens in general, the SYB is offered to public and private secondary education institutions, as well as to all municipal libraries.

The SYB is available in paper and PDF, in a bilingual version (Portuguese/English). In the "Publications" menu of the Statistics Portugal's website, one can access all previous editions of the SYB.
